## **I. GENERAL PROVISIONS**

### **§ 1**

1. Education at the Doctoral School prepares doctoral students to obtain a doctoral degree and is conducted at the University in the following disciplines:
  - 1) architecture and urban planning,
  - 2) automation, electronic and electrical engineering,
  - 3) information and communication technology,
  - 4) civil engineering and transport,
  - 5) materials engineering,
  - 6) mechanical engineering,
  - 7) environmental engineering, mining and energy,
  - 8) chemical sciences,
  - 9) management and quality studies.
2. Education at the Doctoral School is conducted on the basis of applicable regulations, in particular:
  - 1) the Act of 3 July 2018 - Introductory provisions of the Act - Law on Higher Education and Science (Journal of Laws 2018, item 1669, as amended),
  - 2) the Act of 20 July 2018 - Law on Higher Education and Science (Journal of Laws 2018, item 1668, as amended),
  - 3) Ordinance of the Minister of Science and Higher Education of November 14, 2018 on the description of second cycle learning outcomes for qualifications on the levels 6-8 of Polish Qualifications Framework (Journal of Laws 2018, item 2218),
  - 4) Education Program Framework (Poznan University of Technology Senate's Resolution No. 207/2016-2020 of December 18, 2019, as amended),
  - 5) individual education programs and individual research plans.
3. Education at the Doctoral School is free of charge.
4. Education at the Doctoral School is carried out in English.
5. The Doctoral School is established, transformed and closed by the Rector.
6. The activity of the Doctoral School run at the University is supervised by the Rector.

## **II. UNDERTAKING EDUCATION AT THE DOCTORAL SCHOOL**

### **§ 2**

1. Recruitment to the Doctoral School takes place by means of a competition. Detailed rules and procedures of recruitment are described in the Resolution No. 206/2016-2020 of the Academic Senate of the Poznan University of Technology of December 18, 2019 (as amended) on establishing admission rules to Doctoral School.
2. A person entered on the register of doctoral students begins education and acquires the rights of a doctoral student at the moment of oath taking.
3. The text of the oath, referred to in sec. 2, is set out in the Annex 1.

## **III. EDUCATION PROGRAM FRAMEWORK AT THE DOCTORAL SCHOOL**

### **§ 3**

1. The Education Program Framework at the Doctoral School is established by the Senate. Determining the program requires consultation with the doctoral students' council. In the event of the ineffective expiry of the period specified in the statute, the requirement to seek an opinion shall be deemed to have been met.
2. The Education Program Framework leads to the achievement of learning outcomes for qualifications at level 8 of the Polish Qualifications Framework (PQF) in terms of knowledge, skills and social competences.
3. Education at the Doctoral School creates opportunities for:
  - 1) implementation of an individual education program, including compulsory courses and elective lectures, training and internships,

- 2) implementation of an individual research plan, including conducting scientific research, also outside the Unit,
- 3) scientific cooperation in research teams, including international ones,
- 4) preparation and accomplishment of at least one of the following:
  - a) 1 scientific article published in a scientific journal or in reviewed conference proceedings which, in the year of the article's publication in its final form, were included in the list drawn up in accordance with the provisions issued pursuant to Art. 267 sec. 2 point 2 (b) of the Act, or
  - b) 1 scientific monograph issued by the publishing house which, in the year of the monograph publication in its final form, was included on the list drawn up in accordance with the provisions issued pursuant to Art. 267 sec. 2 point 2 (a) of the Act, or a chapter in such monograph, or
  - c) a work of art of considerable importance;
- 5) participation in the life of the scientific community in the country and abroad.
4. The complete program, which consists of compulsory and elective classes, trainings and internships, enables the doctoral student to obtain ECTS points specified in the Education Program Framework.
5. The classes which are included in the Education Program Framework can be taken by a doctoral student both at the University and - to some extent - in other institutions educating doctoral students in the country and abroad. Recognition of doctoral student's achievements outside the University is carried out in accordance with the applicable rules of the ECTS system. It is possible for part of the individual education program to be recognized after a written statement from the host institution has been submitted.
6. The assessment of the level of knowledge, skills and social competence is carried out on the basis of the following assessment scale: very good (5.0), good plus (4.5), good (4.0), satisfactory plus (3.5), satisfactory (3.0), unsatisfactory (2.0).
7. The method of documenting the course of education is set out in the Education Program Framework and § 11.
8. Providing doctoral students with the opportunity to complete their professional practical training and individual research plan, in particular access to the resources included in § 17 sec. 4 point 8, is the task of the Unit in which doctoral students conduct research related to the implementation of a doctoral dissertation.
9. In the event of cessation of conducting doctoral education in a given discipline, the University shall ensure that doctoral students preparing their doctoral dissertation in that discipline may continue their education at another doctoral school in that discipline in Poland.
10. In the absence of a doctoral school providing education in a given discipline, the University where education has been discontinued shall bear the costs of the proceedings for the award of a degree of doctor in extramural mode.

#### **IV. COURSE OF EDUCATION AT THE DOCTORAL SCHOOL**

##### **§ 4**

1. Education of doctoral students in the Doctoral School:
  - 1) is conducted in the full-time mode and lasts 8 semesters,
  - 2) is carried out based on individual education program and individual research plan,
  - 3) prepares to obtain the PhD degree,
  - 4) concludes with submitting a doctoral dissertation.
2. The doctoral dissertation demonstrates the general knowledge of a doctoral student in a discipline or disciplines and the ability to conduct research or artistic work independently.
3. The subject matter of the doctoral dissertation shall be an original solution to a scientific problem or in terms of the application of results in own scientific research in the economic or social sphere, or an original artistic achievement.
4. The doctoral dissertation may be a written work, including a scientific monograph, a collection of published and thematically related scientific articles; design, construction, technological, implementation or artistic work, as well as an independent and separate part of a collective work.
5. Submitting a doctoral dissertation requires a positive opinion of the supervisor or supervisors.
6. Submitting a doctoral dissertation is carried out in a mode of and based on regulations set forth by the particular Discipline Council. The Chair of the Discipline Council provides the Director with information about

submitting a doctoral dissertation together with one copy of doctoral dissertation (in electronic and paper version) and an opinion of a supervisor or supervisors.

## § 5

1. The credit period is the academic year.
2. Annual report of implementation of individual education program and results and progress of work included in the individual research plan for the previous academic year, including an opinion of supervisor or supervisors, is submitted by a doctoral student, in paper and electronic forms, to the administration of Doctoral School by the end of September of each academic year. The specimen report is set out in Annex 2.
3. Supervisor or Coordinator may apply for a commission assessment of a doctoral student's work progress during education in the Doctoral School but no earlier than after completing their first year of education at the doctoral school.
4. A request for a commission assessment of the doctoral student's work progress, referred to in sec. 3, is submitted by the supervisor or Coordinator to the Director.
5. In special cases, the commission assessment of progress of a doctoral student's work referred to in sec. 3, may be requested by the Director.
6. To carry out the assessment referred to in sec. 3, the regulations concerning mid-term assessment are applicable, except for those related to public knowledge of the result of the assessment and its justification.

## § 6

The Director, in justified situations, especially in case of:

- 1) occurrence of unpredictable contingencies,
- 2) temporary inability to receive education due to illness,
- 3) possession of a certificate of a degree of disability,
- 4) need for personal care of a sick family member,
- 5) need to provide personal care of a child up to four years old or a child with a confirmed disability,
- 6) need for long-term scientific research,

may, at the request of the doctoral student supported by the supervisor or supervisors, extend the deadline for submitting a doctoral dissertation, stated in the individual research plan, by a maximum total of 2 years.

## § 7

1. The request for extension of the deadline for submitting the doctoral dissertation referred to in § 6 includes:
  - 1) doctoral student's data: name, surname, student ID and indication of the year (semester) of studies,
  - 2) justification and specification of the expected time of submitting the doctoral dissertation,
  - 3) modified individual research plan and/or individual education program.
2. The application is accompanied by:
  - 1) a document justifying the extension of deadline for submitting the doctoral dissertation in cases referred to in § 6, points 1-5,
  - 2) supervisor's or supervisors' opinion in the case referred to in § 6, point 6.
3. The request to extend the deadline for submitting the doctoral dissertation, referred to in § 6, point 6, should be submitted to the Director no later than three months prior to the expected doctoral dissertation submission indicated in the individual research plan.

## § 8

The Director, at the request of a doctoral student, suspends education for a period corresponding to the duration of maternity leave, leave on the conditions of maternity leave, paternity leave and parental leave, as defined in the Act of 26 June 1974 – Labor Code (Journal of Laws 2018, item 917 as amended) hereinafter referred to as LC.

## § 9

The applications referred to in § 7 and § 8 shall be considered by the Director within 14 days from their submission.

## § 10

1. A doctoral student shall be removed from the register of doctoral students in case of:
  - 1) a negative result of the mid-term assessment,
  - 2) failure to submit a doctoral dissertation within the deadline specified in the individual research plan,
  - 3) opting out of further education.
2. A doctoral student may be removed from the register of doctoral students in case of:
  - 1) unsatisfactory progress in the preparation of their doctoral dissertation,
  - 2) non-compliance with rules resulting from the Regulations, individual doctoral education program and individual research plan,
  - 3) negative result of assessment carried out upon the request of the supervisor, Coordinator or Director.
3. Removal from the register of doctoral students shall be effected by the way of an administrative decision. A doctoral student may appeal Director's decision.
4. Administration of doctoral school informs the Chair of the appropriate Discipline Council and Coordinator about the removal of doctoral students from the register of doctoral students.

## § 11

1. The Doctoral School keeps record of doctoral students' education.
2. Documentation of the course of doctoral student's education at the Doctoral School is kept in their individual personal file, which includes:
  - 1) documents required from candidate to the Doctoral School at the recruitment stage including:
    - a) an application for admission to the Doctoral School,
    - b) a copy of the Master's degree diploma (a graduate of 2nd cycle or uniform studies) or diploma, referred to in Art. 326 sec. 2 point 2 or Art. 327 sec. 2 of the Act, which entitles its holder to undertake doctoral studies in the country of issue, certified for compliance with the original by the university employee,
    - c) curriculum vitae containing personal data and the course of previous education and/or employment,
    - d) a cover letter,
    - e) a declaration of choosing research topic from available list and potential supervisor,
    - f) description of proposed individual research plan proving candidate's ability to realise chosen research topic,
    - g) other documents required in a case of candidate whose doctoral scholarship is financed in a frame of project/program,
  - 2) documents confirming the admission to the Doctoral School:
    - a) the oath signed by doctoral student,
    - b) confirmation of the receipt of doctoral student ID,
    - c) copy of the admission certificate issued individually at doctoral student's request,
  - 3) documents related to the course of education at Doctoral School:
    - a) information on the appointment of supervisor or supervisors, or supervisor and auxiliary supervisor,
    - b) doctoral education program sheets,
    - c) individual research plan and individual education program of doctoral student,
    - d) documents related to mid-term assessment, in particular mid-term evaluation result with its justification,
    - e) annual reports provided by doctoral student,
    - f) submitted doctoral dissertation together with positive opinion of supervisor or supervisors,
  - 4) other documents relating to doctoral student submitted or issued during education at the Doctoral School.
3. Documenting the course of education is carried out in paper and electronic forms.
4. The University enters doctoral students' data into the system referred to in Art. 342 sec. 1 of the Act.

## **V. INDIVIDUAL EDUCATION PROGRAM AND INDIVIDUAL RESEARCH PLAN**

### **§ 12**

1. A doctoral student, in consultation with the supervisor or supervisors, shall draw up an individual education program and individual research plan, submit them to the Director and administration of doctoral school in paper and electronic forms within 12 months of the date of the commencement of education.
2. In case of appointing an auxiliary supervisor, documents referred to in sec. 1, are submitted after the provision of opinion by an auxiliary supervisor.
3. The implementation of the individual education program and the individual research plan shall be subject to:
  - 1) ongoing supervision of a supervisor or supervisors, or supervisor and auxiliary supervisor,
  - 2) mid-term evaluation.
4. Individual doctoral education program and individual research plans include description of the second-cycle learning outcomes for qualification on the level 8 of Polish Qualifications Framework.

### **§ 13**

1. Individual education program is developed based on the Education Program Framework and should:
  - 1) indicate obligatory courses and elected lectures by doctoral student, including interdisciplinary ones,
  - 2) provide for the possibility of professional practical training performed by conducting classes or participating in conducting classes in the amount not exceeding 60 teaching hours annually and
  - 3) specify the date of the planned, at least 2-month-long, practical training in a chosen scientific/research/industrial unit.
2. The individual research plan of doctoral student specifies in particular:
  - 1) a schedule for the preparation of the doctoral dissertation and planned date of its submission,
  - 2) a plan to obtain minimal required achievements as stated in § 3 sec. 3 point 4 herein.
3. The individual research plan of a doctoral student may include:
  - 1) preparing and submitting a grant application to a national or foreign agency financing scientific activity or research and development through a competition,
  - 2) completion of at least 2-month-long scientific internship in a domestic or foreign unit,
  - 3) at least 2-week-long study visit to a domestic or foreign unit,
  - 4) method of dissemination of research outcomes,
  - 5) plan of participation in scientific conferences on national or international level,
  - 6) contribution in co-organizing scientific conferences on national and international level.
4. In justified cases, after mid-term assessment, one-time modification of individual research plan or individual education program is possible.

## **VI. MID-TERM ASSESSMENT**

### **§ 14**

1. Mid-term assessment, referred to in Art. 202 sec. 2-4 of the Act, shall be carried out in the middle of the period of education specified in the Education Program Framework.
2. In the event of suspension of the doctoral student training referred to in Art. 204 sec. 3 of the Act or as a result of justified random events, the date of the mid-term evaluation is set individually in time enabling it to be carried out in the middle of the doctoral student's education.
3. Detailed procedure and schedule of the mid-term assessment is determined by the Director.
4. When carrying out the mid-term assessment, a means of electronic communication can be used.

### **§ 15**

1. Mid-term evaluation of doctoral students shall be conducted by the Commissions for mid-term assessment within each discipline hereinafter referred to as Commission.
2. The respective Commission composed of 3 persons, including at least 1 person holding the postdoctoral degree or the title of professor possessing research achievements in the discipline in which a doctoral

- dissertation is being prepared, employed outside the University and 2 persons holding the postdoctoral degree or the title of professor and representing a specific discipline in which a doctoral dissertation is being prepared.
3. Supervisor and auxiliary supervisor must not be members of the Commission.
  4. Additionally, it is allowed for the representative of the doctoral students, appointed by the Doctoral Council, to take part in the proceedings of the Commission, however, without the right to vote.
  5. The composition of the Commission is proposed by the Chair of the Discipline Council in agreement with Coordinator or members of appropriate Discipline Council.
  6. The Commission is appointed by the Rector upon the Director's request, the Rector also appoints the head of the respective Commission.
  7. Composition of the Commission is non-confidential.
  8. A member of the Commission who is employed outside of the University shall be entitled to a salary amounting to 20% of a professor's salary.

## **§ 16**

1. Mid-term assessment is carried out by the Commission on the basis of:
  - 1) a written report in which the doctoral student presents the implementation of the individual research plan and individual education program,
  - 2) doctoral student's presentation of scientific achievements related to realization of doctoral dissertation,
  - 3) scientific discussion with the doctoral student.
2. During the scientific discussion referred to in sec. 1 point 2, a doctoral student will be asked questions regarding the implementation of their research objectives.
3. The mid-term assessment covers the implementation of an individual education program and individual research plan by the doctoral student, in particular the timeliness and quality of the performance of tasks arising from the schedule of preparation of the doctoral dissertation.
4. Mid-term assessment can have either positive or negative result.
5. The result of mid-term assessment together with its justification should be agreed with all members of the Commission. The result of mid-term assessment together with its justification signed by the head of Commission is passed on to the Director.
6. Administration of doctoral school informs the Chair of the appropriate Discipline Council and Coordinator about the result of mid-term assessment.
7. The result of mid-term assessment, together with its justification, shall be public.
