I. GENERAL PROVISIONS

§ 1

1. Education of doctoral students at the University prepares them to obtain a doctoral degree and takes place at the Doctoral School. The Rector determines the scientific disciplines in which the education of doctoral students is conducted.
2. Education at the Doctoral School is conducted on the basis of applicable regulations, in particular:
 - 1) the Act of Law of 3 July 2018 - Introductory provisions of the Act of Law on Higher Education and Science (Journal of Laws 2018, item 1669, as amended),
 - 2) the Act of Law of 20 July 2018, on Higher Education and Science (Journal of Laws 2023, item 742, as amended),
 - 3) Ordinance of the Minister of Science and Higher Education of November 14, 2018 on the description of second cycle learning outcomes for qualifications at the levels 6-8 of Polish Qualifications Framework (Journal of Laws 2018, item 2218),
 - 4) The Doctoral training program (The Curriculum), based on a resolution passed by the Senate,
 - 5) Individual training programs and individual research plans.
3. Education at the Doctoral School is free of charge.
4. Education at the Doctoral School is carried out in English.
5. The Doctoral School is established, transformed and closed by the Rector.
6. The activity of the Doctoral School run at the University is supervised by the Rector.

II. RECRUITMENT TO THE DOCTORAL SCHOOL

§ 2

1. Recruitment to the Doctoral School takes place by means of a competition. Detailed rules and procedures of recruitment to the Doctoral School are established by the Senate.
2. A person entered on the register of doctoral students begins education and acquires the rights of a doctoral student at the moment of taking the oath.
3. The text of the oath, referred to in sec. 2, is set out in Annex 1.

III. CURRICULUM AT THE DOCTORAL SCHOOL

§ 3

1. The Doctoral training program (The Curriculum) of the Doctoral School is established by the Senate in consultation with the PhD Students' Union. If the consultations are ineffective in the period specified in the statute, the requirement to seek an opinion shall be deemed to have been met.
2. Realization of the Curriculum leads to the achievement of learning outcomes for qualifications at level 8 of the Polish Qualifications Framework (PQF) in terms of knowledge, skills and social competences.
3. Education at the Doctoral School creates opportunities for:
 - 1) implementation of an individual training program, including obligatory and elective courses, an internship and professional practical trainings,
 - 2) implementation of an individual research plan, including carrying out of scientific research in collaboration with a supervisor or supervisors or a supervisor and an auxiliary supervisor,
 - 3) scientific cooperation in research teams,
 - 4) preparation and accomplishment of at least one of the following:
 - a) 1 scientific article published in a scientific journal or in reviewed conference proceedings which, in the year of the article's publication in its final form were included in the list drawn up in accordance with the provisions issued pursuant to Art. 267 sec. 2 point 2 (b) of the Act, or
 - b) 1 scientific monograph issued by the publishing house which, in the year of the monograph publication in its final form, was included on the list drawn up in accordance with the provisions issued pursuant to Art. 267 sec. 2 point 2 (a) of the Act, or a chapter in such monograph, or
 - c) a work of art of considerable importance;
 - 5) participation in the life of the scientific community.

4. The total number of hours of obligatory and elective courses ensure that the doctoral student gets the ECTS credits defined in the Curriculum.
5. The courses which are included in the Curriculum may be taken up and completed by a doctoral student both at the University and - to some extent - in other institutions educating doctoral students in the country and abroad. It is possible to pass some of the courses or a part of the individual training program following the rules specified in the Curriculum.
6. The Director of the Doctoral School, at a written request of a doctoral student supported by their supervisor, may recognize the completion of a part of the individual training program by the doctoral student during a research internship in other research units in the country and abroad, upon presentation of a written certificate from the host institution.
7. A doctoral student who fails to complete an individual training program in a given semester must complete the missing courses in the following academic year. If they are not completed, the procedure of removing a doctoral student from the register may be initiated.
8. A doctoral student is obliged to document the achievement of all learning outcomes and the fulfillment of other conditions specified in the Curriculum of the Doctoral School before submitting the doctoral dissertation.
9. To verify the learning outcomes in terms of knowledge, skills and social competence within a given subject, the following grading scale is used: very good (5.0), good plus (4.5), good (4.0), satisfactory plus (3.5), satisfactory (3.0), unsatisfactory (2.0), it is also possible to credit (ZAL) or not credit (NZAL) a subject. The subject is considered as not completed in the case of a grade of 2.0, NZAL, non-classification (NK) and absence (NB).
10. The University Unit in which doctoral students carry out their research work towards preparation of doctoral dissertations is obliged to provide doctoral students with the opportunity to complete their professional practical training and individual research plan, in particular access to the resources included in § 17 sec. 3 point 8.
11. In the event of cessation of conducting doctoral education in a given discipline, the University shall ensure that doctoral students preparing their doctoral dissertation in that discipline may continue their education at another doctoral school in that discipline in Poland.

IV. EDUCATION AT THE DOCTORAL SCHOOL

§ 4

1. Education of doctoral students in the Doctoral School:
 - 1) lasts 8 semesters,
 - 2) is carried out based on individual training program and individual research plan,
 - 3) prepares to obtain the PhD degree,
 - 4) concludes with the submission of a doctoral dissertation together with a positive opinion of the supervisor or supervisors.
2. The doctoral dissertation demonstrates the general knowledge of a doctoral student in a discipline or disciplines and the ability to conduct research or artistic work independently.
3. The subject matter of the doctoral dissertation shall be an original solution to a scientific problem or an original solution in the application of results of own scientific research in the economic or social sphere, or an original artistic achievement.
4. The doctoral dissertation may be a written work, including a scientific monograph, a collection of published and thematically related scientific articles, an original design, construction or technology, implementation or artistic work, as well as an independent and separate part of a collective work.
5. A doctoral student submits a doctoral dissertation together with a positive opinion of the supervisor or supervisors to the administration of the Doctoral School, in hard copy and electronic form.

§ 5

1. The credit period is the semester and the report period is the academic year.
2. Annual report of realization of individual training program and results and progress of work included in the individual research plan for the academic year, including an opinion of supervisor or supervisors, should be submitted by a doctoral student, in hard copy and electronic forms, to the administration of the Doctoral School by the end of September of each academic year. The specimen report is set out in Annex 2.

3. Supervisor or Coordinator may apply for a commission assessment of a doctoral student's work progress during education at the Doctoral School, but not earlier than after completion of their first year of education at the Doctoral School.
4. A request for a commission assessment of the doctoral student work progress, referred to in sec. 3, is submitted by the supervisor or Coordinator to the Director.
5. In special cases, the commission assessment of progress of a doctoral student's work referred to in sec. 3, is ordered by the Director.
6. To carry out the assessment referred to in sec. 3, the regulations concerning mid-term assessment are applicable, except for those related to public knowledge of the result of the assessment and its justification.

§ 6

The Director, in justified situations, especially in case of:

- 1) occurrence of unpredictable contingencies,
- 2) temporary inability to receive education due to illness,
- 3) possession of a certificate of a degree of disability,
- 4) need for personal care of a sick family member,
- 5) need to provide personal care of a child up to four years old or a child with a confirmed disability,
- 6) need for long-term scientific research,

may, at the request of the doctoral student supported by the supervisor or supervisors, extend the deadline for submission of a doctoral dissertation, stated in the individual research plan, by a maximum total of 2 years.

§ 7

1. The request for extension of the deadline for submitting the doctoral dissertation referred to in § 6 should include:
 - 1) doctoral student's personal data: name, surname, ID number and indication of the year (semester) of education,
 - 2) substantiation of the request and specification of the expected time of submitting the doctoral dissertation,
 - 3) modified individual research plan.
2. The application should be accompanied by:
 - 1) a document justifying the extension of deadline for submitting the doctoral dissertation in the cases referred to in § 6, points 1-5,
 - 2) supervisor's or supervisors' opinion in the case referred to in § 6, point 6.
3. The request to extend the deadline for submission of the doctoral dissertation, referred to in § 6, point 6, should be presented to the Director no later than three months prior to the expected doctoral dissertation submission indicated in the individual research plan.

§ 8

1. The Director, at the request of a doctoral student, suspends education for a period corresponding to the duration of maternity leave, leave on the conditions of maternity leave, paternity leave and parental leave, as defined in the Act of 26 June 1974 – Labor Code.
2. In justified cases (e.g. due to a long-term illness), at the request of the doctoral student, the Director may express consent for a break in education for a period corresponding to the duration of the reported reason. The decision on the impact of the break in education on the dates of statutory activities in the education process, such as the presentation of an individual research plan (Art. 202 sec. 1 of the Act) or mid-term assessment (Art. 202 sec. 2 of the Act) is taken by the Director.

§ 9

The applications referred to in § 7 and § 8 shall be considered by the Director within 14 days from their submission.

§ 10

1. A doctoral student shall be removed from the register of doctoral students in case of:
 - 1) a negative result of the mid-term assessment,
 - 2) failure to submit a doctoral dissertation within the deadline specified in the individual research plan,
 - 3) opting out of further education,
 - 4) failing to take up education,
 - 5) breach of the regulations referred to in § 17 sec. 1,
 - 6) receiving the disciplinary penalty of expulsion from the Doctoral School.
2. In the procedure of removing a doctoral student from the register, as referred to in sec. 1 point 5, the doctoral student is requested to submit his/her resignation from education at another doctoral school within a period of no less than 30 days from the date of serving the notice.
3. A doctoral student may be removed from the register of doctoral students in case of:
 - 1) unsatisfactory progress in the preparation of their doctoral dissertation,
 - 2) non-compliance with obligations resulting from the Regulations,
 - 3) non-compliance with obligations resulting from the implementation of the Curriculum or individual research plan.
4. Removal from the register of doctoral students shall be effected by the way of an administrative decision. The decision shall be subject to a motion for reconsideration.
5. Administration of the Doctoral School should inform the Chairperson of the appropriate Discipline Council and Coordinator about the removal of doctoral students from the register of doctoral students.

§ 11

1. The Doctoral School keeps record of doctoral students' education.
2. Documentation of the course of doctoral student's education at the Doctoral School is kept in their individual personal file, which includes:
 - 1) documents required from candidate to the Doctoral School at the recruitment stage including:

3. Documentation of the course of education is carried out in hard copy and electronic forms.
4. The University enters doctoral students' data into the system referred to in Art. 342 sec. 1 of the Act.

V. INDIVIDUAL RESEARCH PLAN AND INDIVIDUAL TRAINING PROGRAM

§ 12

1. A doctoral student, in consultation with the supervisor or supervisors, shall draw up an individual research plan, which is submitted to the Director and administration of the Doctoral School in hard copy and an electronic form within 12 months of the date of the commencement of education.
2. In case of appointing an auxiliary supervisor, the document referred to in sec. 1, is submitted after the provision of opinion of an auxiliary supervisor.
3. The realization of the individual research plan shall be subject to:
 - 1) ongoing supervision of a supervisor or supervisors, or supervisor and auxiliary supervisor,
 - 2) mid-term evaluation.
4. Individual research plan includes description of the second-cycle learning outcomes for qualification at the level 8 of Polish Qualifications Framework.
5. The individual research plan of doctoral student specifies in particular:
 - 1) a schedule for the preparation of the doctoral dissertation and planned date of its submission,
 - 2) manner of dissemination of research outcomes - a plan to obtain minimal required achievements as stated in § 3 sec. 3 point 4 herein,
 - 3) completion of at least 2-month-long internship in a scientific/research or industrial unit in the country or abroad,
 - 4) preparation and submission of application in grant competition to a domestic or foreign institution financing scientific or research and development activity,
 - 5) other activities related to completion of research of doctoral dissertation and/or raising competences of doctoral student.
6. In justified cases, after mid-term assessment, one-time modification of individual research plan agreed with the supervisor or supervisors and approved by the auxiliary supervisor (if applicable) as well as accepted by the appropriated Coordinator within the discipline is possible.

§ 13

Based on the Curriculum, the doctoral student agrees with the supervisor or the supervisors the individual training program, which consists of:

- 1) obligatory and elective courses, including interdisciplinary ones,
- 2) professional practical training performed by conducting classes or participation in conducting classes in the amount not exceeding 60 teaching hours annually and
- 3) at least 2-month-long internship in a chosen scientific/research or industrial unit in the country or abroad.

VI. MID-TERM ASSESSMENT

§ 14

1. Mid-term assessment, referred to in Art. 202 sec. 2-4 of the Act, shall be carried out in the middle of the period of education specified in the Curriculum.
2. In the case of a later commencement of training, the date of the mid-term evaluation is set individually in time enabling it to be carried out in the middle of the doctoral student's education.
3. In the event of suspension of the doctoral student training referred to in Art. 204 sec. 3 of the Act or as a result of unforeseen incidents, the date of the mid-term evaluation is set individually in time enabling it to be carried out in the middle of the doctoral student's education.
4. Details of the manner in which the work of Commissions, referred to in § 15 sec. 1, is organized, submission of documents by doctoral students and schedule of the mid-term assessment is determined by the Director.
5. When carrying out the mid-term assessment, a means of electronic communication can be used.

§ 15

1. Mid-term evaluation shall be conducted by the Commission for mid-term assessment which is appointed individually for each doctoral student within a given discipline, hereinafter referred to as the Commission.

2. The respective Commission composed of 3 persons, including at least 1 person employed outside the University and holding the postdoctoral degree or the title of professor in the scientific discipline and having research achievements within the research topic in which a doctoral dissertation is prepared, or a person who is employed at the foreign university or scientific institution and the appropriate Discipline Council has recognized that he/she has significant achievements in the field of scientific issues covered by the doctoral dissertation and 2 persons holding the postdoctoral degree or the title of professor and having research achievements within the scientific discipline in which a doctoral dissertation is prepared.
3. Supervisor and auxiliary supervisor must not be members of the Commission.
4. Additionally, a representative of the doctoral students, appointed by the PhD Students' Union is allowed to take part in the proceedings of the Commission, however, without the right to vote.
5. The proposal of the composition of the Commission, agreed with the Chairperson of the Discipline Council and members of appropriate Discipline Council, is provided by the Coordinator within the discipline to the Director of the Doctoral School.
6. The Commission is appointed by the Rector upon the Director's request, the Rector also appoints the head of the respective Commission.
7. Composition of the Commission is non-confidential.
8. A member of the Commission who is employed outside of the University shall be entitled to a salary amounting to 20% of a professor's salary.

§ 16

1. Mid-term assessment is carried out by the Commission on the basis of:
 - 1) a mid-term report, in which the doctoral student presents the implementation of the individual research plan,
 - 2) doctoral student's presentation of scientific achievements related to realization of doctoral dissertation,
 - 3) scientific discussion with the doctoral student.
2. During the scientific discussion referred to in sec. 1 point 3, a doctoral student will be asked questions regarding the implementation of their research objectives and individual research plan.
3. The mid-term assessment covers the implementation of an individual research plan by the doctoral student, in particular the timeliness and quality of the performance of tasks arising from the schedule of preparation of the doctoral dissertation.
4. Mid-term assessment can have either positive or negative result.
5. The Commission agrees upon the result of mid-term assessment by simple majority of votes and collectively gives justification for the result. The result of mid-term assessment together with its justification signed by the head of the Commission is passed on to the Director.
6. Administration of the Doctoral School informs the Chairperson of the appropriate Discipline Council and Coordinator about the result of mid-term assessment.
7. The result of mid-term assessment, together with its justification, shall be public.
