Podpis

Krzysztof Ćwian

the doctoral student at PUT Doctoral School / doktorant Szkoły Doktorskiej PP

discipline of science / dyscyplina naukowa: **automatyka, elektronika i elektrotechnika / automation, electronic and electrical engineering**

The result of assessment / Wynik oceny

Positive / Pozytywna*	~~Negative / Negatywna*~~

Justification / Uzasadnienie

Mr Krzysztof Ćwian, M.Sc., a second-year doctoral student at the Poznan University of Technology in the discipline of Automation, Electronics and Electrical Engineering, presented the results of his research. The main nature of his work is experimental and requires the use of advanced software tools, including optimisation algorithms in the SLAM problem.

By the date of the mid-term evaluation (26.09.2022), the PhD student has completed 4 tasks, which according to the individual research plan (IRP) represent 50% of the completed doctoral work. Mr Krzysztof Ćwian, M.Sc. has so far published three co-authored papers in journals from the JCR list and one conference paper which are in line with the assumptions in the individual research plan. It is noteworthy that the PhD student has published the obtained results in well-known journals.

To summarize, Mr Krzysztof Ćwian, M.Sc. has demonstrated that he, for the most part, has completed the tasks envisaged for implementation in the IRP. Certain deviations from the assumed plan are minor and already addressed so that they should not affect the deadline for the completion of research foreseen for the second quarter of 2024.
All members of the Committee express an unambiguously positive opinion on the activity of Mr Krzysztof Ćwian, M.Sc.
