

*The result of the mid-term assessment together with the
justification*
Wynik oceny śródkresowej wraz z uzasadnieniem

for the period 01.10.2020 to 31.08.2022

Paweł Andruloniw

the doctoral student at PUT Doctoral School / doktorant Szkoły Doktorskiej PP

discipline of science / dyscyplina naukowa: **informatyka techniczna i telekomunikacja /
information and communication technology**

The result of assessment / Wynik oceny

Positive / Pozytywna*	Negative / Negatywna*
------------------------------	------------------------------

Justification / Uzasadnienie

The provided evaluation report is prepared with great care; it is detailed and complete, allowing for just and fair assessment of the results. Following it, the commission states that the Ph.D. student presented a clear, well-defined and legible research plan, together with properly defined research methodology. The Ph.D. candidate showcased and discussed in detail the proposed, original scientific solutions to the identified research problems. He is a co-author of some papers indexed by MEiN, both conference publications (one paper) and journal papers (two papers). He is also a co-author of two chapters in a book/publications not-indexed by MEiN. Moreover, the Ph.D. Candidate gave talks during three online conferences, and completed the internship in INEA.

The work is, in general, proceeding properly, almost fully in line with the proposed IRP. It is worth noting that the Ph.D. student is the first author of the reported papers what confirms to some extent his involvement in their preparation, his contribution and indirectly gained expertise in the field of study.

All the concerns appeared during the review of the report have been discussed and clarified with the Ph.D. Candidate.

Thus, the overall assessment of the commission is positive, denoting the presented achievements as good and highly promising.
