Justification / Uzasadnienie

The doctoral student conducted literature research, formulated a scientific research problem, and adopted a detailed research program. The work is being carried out according to schedule. The work provides scientific value and significant applied value. The doctoral student has completed approximately 60% of the IRP. The doctoral candidate has demonstrated limited publication activity, having written two papers that are currently under review. It should be emphasized that he completed two research internships abroad. The research process, analysis of results, and conclusions presented in the Periodic Report are comprehensive, logical, and provide sufficient and scientifically sound interpretations. The obtained research results confirm the assumptions made at the outset. The results of the work are the subject of prepared publications. The committee sees no threats to the delays or the accuracy of the preparation of the doctoral dissertation.
