Justification / Uzasadnienie

The Commission unanimously and positively evaluated doctoral student Bastien Raschetti. During the presentation, the doctoral student presented the research conducted during the first two years of the doctoral studies in an interesting and highly engaged manner, and comprehensively discussed the obtained results. During the discussion held after the presentation of the doctoral student, in the opinion of all Commission's members, Mr. Bastien Raschetti demonstrated a very good knowledge of his research subject. In the Commission's assessment, the research methodology applied by the doctoral student will allow for the correct verification of the formulated research hypothesis. At the same time, the Commission emphasized that the doctoral student is pursuing a highly demanding research topic and employing highly advanced research techniques. It was established that the results of the research conducted by the doctoral student during the first two years of the his studies are significant for the completion of the doctoral dissertation and that the research was carried out in accordance with the schedule planned in the Individual Research Plan (IPB) with minor shifts that do not affect the final shape of the research. Furthermore, the Commission sees no threats that could affect the timely completion of the doctoral dissertation. The Commission unanimously and positively evaluated the doctoral student's conference activity, taking into account awards for oral presentations. The Commission considers the doctoral student's scientific output at this stage to be sufficient and consequently decided to issue a positive result of the mid-term assessment.
